Twenty-one Months At The Front

The following letter has been received by Mr. and Mrs. Sanders of Landine from Pte. Robt. Nishett. It will be remembered that Pte. Nishett, previous to enlisting, was a merchant at Exel and was well known in this district.

Dear Mr. and Mrs. Sanders

I was very glad to receive your most interesting letter a few days ago and I intended answering it before this, but owing to one thing and another I haven't had a chance of doing so till now, however, I hope you will pardon the delay. Altho I am very pleased indeed to hear from people around Landine, sometimes we think they have forgotten us, but I guess there is always something to take up their attention around that part. I am very glad to say that I am still alive after twenty-one months in this awful war, and during that time I have seen more than I ever bargained for. Out of the bunch of boys who left Canada when I did only a few are left. Some are prisoners in Germany and others are buried under the soil in France and Belgium.

The Canadian Army Medical Corps

The Canadian Army Medical Corps is that branch of the Canadian military service which looks after the health of the Canadian soldier, from the time of his enlistment, during the period of his training, and in the field on active service. From the time a Canadian soldier is stricken down with wounds on the field of battle, until he is finally discharged from hospital, he is constantly under the care of the C. A. M. C.

In the present war, the C. A. M. C. has arrived at a very high state of efficiency, and operations have been performed and camps effected, with the former campaigns would have been deemed impossible.

The Canadian Field Ambulances, one of which is attached to each division of Canadian troops, have made a splendid name for themselves and the units and drafts proceeding from western Canada to reinforce the field ambulances, hospitals, and so forth, have been specially commended. Of the western provinces, Alberta has done and is doing her share splendidly, in supplying men for overseas with the C. A. M. C. and as some indication of the efficiency of the men sent from this province, who have graduated from Training Depot No. 13, situated at Sarcee camp, near Calgary, Alberta, we would say that of the 100 men called for each month from Canada for overseas service with the C. A. M. C., Alberta supplies 40, a very creditable record indeed. The training at this Depot, which involves some from sea to sea, includes the following: Co-drill, stretcher drill, physical training, first-aid to the injured, lectures on anatomy, physiology and kindred subjects. Sanitation, which has proved to be such an immense study, and of untold value to the troops at the front, is given special attention. When one considers the practical immunity from disease enjoyed by our armies, due to the excellent sanitary precautions, it is not difficult to realize the wonderful progress made along this branch of medical work, as never before in the history of the world's wars, has there been less fever or epidemic, than in the present conflict. The record is all the more striking in view of the fact that more men are engaged in this gigantic struggle than in all the previous wars of two hundred years.

Canadian medical units are to be found in every part of the war zone, France, England, Belgium and the Mediterranean. In the latter district alone, Canada has supplied 4,320 beds and 1,204 medical officers, nurses and orderlies.

More men are needed at once for the C. A. M. C. to carry on the most necessary work. In order that sick and wounded Canadians may be looked after by Canadians, it is necessary that a steady stream of trained men be kept flowing from the training depot at Sarcee Camp. The work is interesting and is likely to be of benefit to one in after life. Drafts are levying for overseas every month. Previous experience is not necessary and any man of average intelligence is eligible for enlistment in this Corps. Enquiries from men interested are invited, and will be cheerfully answered by Recruiting Headquarters, C. A. M. C. Training Depot No. 13, Sarcee Camp, near Calgary.

Job Printing A Specialty

Our work is making many satisfied customers for us, because Neatness and Cleanliness combined with good taste in our composition is our first aim.

All orders receive our prompt attention.

Maxwell

The Maxwell is Built for Canadian Roads

You may have an idea that perhaps the road conditions which your car must face are more trying than in other sections of the country.

But the fact is that the Maxwell is built especially for your roads—no matter how bad they may be. Before even a single car is passed out by our shops it must stand tests that are many times more stringent than any difficulties you will encounter in your vicinity.

Our tests for reliability and general serviceability are much more efficient than any road test could possibly be. We know—that word is used literally—actually know what the Maxwell is going to do before it leaves our shops.

If you could see the large number of dipp forgings, the splendid method of heat treating steel, and other features of construction that enter into the building of the Maxwell you would not have any fear regarding its sturdiness.

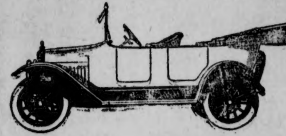

You may have hills. We know that the Maxwell will climb any hill you may have occasion to go over. You may have mud. The Maxwell is built to stand any possible strain it could be asked to stand in legitimate driving.

The Maxwell is built WITHOUT GUESSWORK—TO SUIT ALL ROADS—to suit your roads. In every part of the world it is giving perfect satisfaction.

Mrs. E. S. Watrous, Passes Away

It is with regret that we have to announce the death of Mrs. E. S. Watrous which occurred at her home at Excel on Friday July 20th.

The deceased lady, who had been suffering from cancer for several years was taken to the hospital at Rochester, Minn., a few weeks ago, but the doctors were unable to do anything for her. After her return from Rochester Mrs. Watrous was confined to her bed till death relieved her from her suffering. She died at the age of fifty-six years.

The late Mrs. Watrous came to Excel from San Francisco, Cal., about six years ago, and was one of the pioneers of the district. She was always sought for by all the neighbours in their time of trouble, her name being a household word in the district because of the kindly and sympathetic interest she manifested to all. She was especially attentive at times of sickness and many were her gifts given in quiet and unostentatious way.

By her death she leaves a husband, three daughters and a son to mourn her loss.

Amid tokens of respect, the remains of Mrs. Watrous were laid to rest in the Oyen cemetery on Sunday morning last. There was a large attendance at the funeral, representatives from all the neighboring farms in the district in which her presence and help were highly valued. Service at the residence was conducted by the Rev. S. D. Webster, who also conducted the service at the graveside.

Lovely floral tributes were sent from the following: Father and Ernest, Mr. and Mrs. S. H. Abbott, and Friends from Excel.

A quiet wedding took place on July 12th at the Methodist church, Empress, when Miss Viola Ewing of Oyen, became the bride of E. M. Miller of Benton. We all join to wish them a long and happy married life.

Twenty-one Months at the Front

How I escaped is more than I can tell, and many a time I have wished that I was back on the peaceful prairie, but still I don't suppose I would have been content to have stayed behind, seeing so many boys have responded to the call. Unfortunately some will never return, but we still cherish their memories, and what they have done for their country to uphold the rights of the civilized world. I had the pleasure of talking to one of the boys from Oyen, Bert Scott, for a few minutes before he was killed, in fact we had made arrangements to meet on a later date, but his regiment got a hurried call to go back into the trenches. Little did I think I would never see him again, but he fancied himself there was something going to happen to him, and alas it did. I'm glad to hear that Mr. Simpson is still amongst you all at Landine. Many a time I have pictured to myself the schoolhouse on top of the hill, and the good times we had there. There was more fun in me then than there is now, got quieted down a bit since coming here. I had the pleasure of meeting Harry Braden here the other night, and we have boys from Landine, Morris and Pitt also Mrs. Stein's boy, but it is pretty hard to locate them even if they are close at hand. Yes Mrs. Sanders, we are doing our bit out here in France, but we are proud of the ladies of the Empire for what they have done for us out here. They too are certainly doing their bit to help us to win the war, in providing comforts for the boys. Many a time I have wondered what we would do without the help of the ladies in this crisis. They have done splendid and may you all be spared to carry on your good work and to enjoy with us the fruits of victory.

I was hoping I would not have to put in another winter in this country, as two winters are sufficient out here, but it looks to me as if it is another "one alright," unless something unforeseen happens.

Now I think I will close for this time, as I don't want to bore you too much. Hope this finds you in the best of health, as it leaves me O.K. Please convey my regards to all the people in your district. Your sincere friend, Robt Nisbett.
